

**In th Claims:**

Amend Claim 71 to read as follows:

71 (Currently Amended). A biological preparation for use in vivo comprising, ex vivo, cells in suspension and a purified mammalian heparanase enzyme being externally adhered to said cells, thereby increasing the natural amount of heparanase externally adhered to said cells, so as to enhance extravasation, implantation, transplantation, invasion and/or migration of said cells in vivo, with the provision that said cells do not comprise a human embryo life, blastocyst and/or neuroblast.

Claim 72 (Previously Amended). The biological preparation of claim 71, wherein said cells are selected from the group consisting of hematopoietic cells, stromal cells, keratinocytes, astrocytes, fibroblasts and genetically modified cells.
